

ENTAIN PLC: DEBT POSITION

- As at 30 June 2025, adjusted net debt was £3,550.2m and represented an adjusted net debt to underlying EBITDA ratio of 3.1x
- Entain uses interest rate swaps to hedge interest rate risk.
- Approximately half of the Group's post-swap gross debt (exc. leases) is at fixed interest rates.
- Currency swaps are used to hedge the USD debt into EUR, GBP and AUD.
